Abstract (en)
Waders (100) comprising an upper body section (102), lower body section (104), upper leg sections (106), lower leg sections (108) and sock sections (112), wherein the wader (100) comprises at least one of a waist constriction (114) and a chest constriction (116) adapted to impede ingress of fluid into the waders (100) during use, and the sock sections (112) are adapted to compress against the feet of a wearer during use. The waders (100) may further be provided with a wading jacket (150).
