Abstract (en)

[origin: EP2394557A2] The dishwasher (4) has a washing area (6), whose opening (60) is closed by a door (8) that is pivotable in lower area, where an illumination system is provided with an illumination unit (2) that is arranged in the area of an upper edge (61) of the opening. A light conducting device is formed such that the main beam direction of the light beam is directed from the washing area away in direction on the door.
