Abstract (en)

[origin: EP2395164A2] The component comprises a bulking material (11) or adjustment particles and a layer (10) for building insulation or removal of building loads, where a binding material (12) is provided with resin, particularly epoxy resin or plastic resin or natural resin. The two layers are fastened or stuck together by the binding material. An independent claim is also included for a method for producing components.
