Abstract (en)
This invention relates to a cable bolt (1) for use in rock bolting and a method for its installation. The cable bolt (1) comprises a cable (5), a supporting tube (55) surrounding part of the cable (5), and an adapter (20) for receiving a drive tool for rotationally driving the cable bolt (1) into a hole. The supporting tube (55) has a length which is sufficient to substantially prevent cable buckling when the cable (5) is driven into the hole by the drive tool.
