Abstract (en)

[origin: EP2397285A1] The station has an upper table provided with an upper tool, and a lower table provided with a lower tool (20). The upper tool comprises a punching and/or groove cutter and/or embossing plates, and the lower tool is designed as a plate-type counter tool for the upper tool. The lower tool is connected with the lower table via a frameless holding and positioning device (40), which comprises an adjusting device (41) for aligning the lower tool. A recess (21) is assigned with a stopper body (42) and a clamping body (43), where the bodies are movable in a sheet transport direction (B).
