Abstract (en)

The invention relates to a bracket assembly, a facade support, a facade and a method for placing thereof. The bracket assembly comprises: - a wall part for mounting the bracket assembly on a wall; - a connecting part connected to the wall part; - coupling means provided on the connecting part for receiving a support element on which a support profile can be mounted; - height adjusting means for adjusting the height of the support element relative to the wall; and - depth adjusting means for adjusting the distance of the support element from the wall.
