Abstract (en)

[origin: EP2397641A2] The connector (1) has a center wall or a base (2), and a sidewall (3). The sidewall comprises a profiled outer contour with an outer wall region (11) that is carried to the interior (7) of the plug connector. A set of upright surface regions is adapted to an inner-side molding of a neighboring profile side wall. The outer wall region is arranged at a side wall region. The upright surface regions are provided in a planar or curved form.
