Abstract (en)

The present invention relates to a cooking hob with one or more heating systems. The cooking hob includes at least one upper part (10) provided for supporting cookware and/or food stuff, and at least one lower part (16) provided for containing at least one heating element inside said lower part (16). The at least one lower part (16) is arranged below the at least one upper part (10). The cooking hob includes at least one housing (18) provided for containing at least one control unit, at least one display (24) and/or control elements (26). The at least one housing (18) is arranged at the side of or adjacent to the at least one lower part (16) and below the at least one upper part (10). The at least one housing (18) is attached at a side wall (22) of the at least one lower part (16).
