Abstract (en)
[origin: WO2010094794A1] The invention relates to a light diffuser (1) comprising a holder device (2) and an inflatable, at least partially light-transmissive bag (3) that can be attached to the holder device (2), wherein the holder device (2) comprises an adapter ring (4) comprising a light-transmissive disc, in particular a glass disc (5), for fastening to a spotlight and for connecting the inflatable sack (3) in a substantially airtight manner. The end of the sack (3) that can be connected to the adapter ring (4) is surrounded airtight by a fastening ring (6) that can be tensioned against a radially extending sealing surface (8) on the adapter ring (4) by means of at least three quick-closures (7), arranged approximately uniformly distributed over the circumference.
