Abstract (en)
[origin: EP2399488A1] The goods stand (10) has a firm base element (18), a coating element (16) and two goods carriers (11,12). A mobile base element (20) is provided to move the former goods carrier from one position into another position. The mobile base element moves the latter goods carrier from the former position into the latter position. The mobile base element is made of plastic. An independent claim is also included for a method for offering goods in a showroom.
