Abstract (en)

[origin: WO2010103310A1] The present invention relates to a load security assembly, particularly for load carrying vehicles such as lorries. The load security assembly prevents a cargo from spilling into the road after a road traffic accident. For instance, a lorry (10) with a load carrying surface (20) may have a load (40) secured thereto by tensioned straps (50) which are anchored to anchoring tracks 100 via a series of anchors (200).
