Abstract (en)

[origin: EP2407050A2] The backpack (1) has a frame arrangement (9) provided with a vertical frame region (10) and a transversely running frame region. A lower insertion pocket (15) is provided at a rear wall (8) at a lower side of a package space (5) on a side facing towards a net part (17). The frame arrangement is guided through an opening (6) of the rear wall from an inner side of the package space so that the lower ends of the vertical frame region engage in the pocket. The transversely running frame region is inserted in an upper insertion pocket (20) formed at the rear wall.
