Abstract (en)

[origin: EP2407208A1] The protective clothing (4) has a respiratory air supplying device (2) with a diving regulator (8), which is supplied with oxygen through a valve unit (12). The respiratory air supplying device is provided with a signal generator, by which one of the supply positions is signaled. The signal generator has an optical display (36), which is arranged in a head cover (6).
