Abstract (en)

[origin: EP2407587A1] The clothes dryer comprises a housing, where an internal heat exchanger (17) is formed by a wiring harness. The internal heat exchanger has a high pressure pipe section (18) and a low-pressure pipe section (19) that stay in direct contact with heat transfer forming line sections. The low-pressure pipe section is coaxially arranged within the high-pressure line section. A heat exchanger of an evaporator (15) is equipped with a heat pump.
