Abstract (en)
[origin: WO2010107376A1] This invention relates to a three-dimensional multilayer woven fabric comprising at least two woven layers extending substantially parallel to each other wherein said woven fabric further comprises at least one woven interconnecting structure interposed between the at least two layers and being arranged to connect the at least two layers to one another, which interconnecting structure comprises warp yarn arranged to extend between and integrate with said two respective layers in an alternating manner.
