Abstract (en)
[origin: EP2409621A1] The cleaner (1) has a housing comprising a rear wall (7) that is used as a stand surface, and side walls (8). A connector shaft (3) is arranged in the rear wall for accommodating a mains plug (4). An access opening (6) of the connector shaft is extended into the side walls of the housing. A part of the access opening partially releases a base part of the mains plug, and is extended into the side wall. The part of the access opening comprises a triangular horizontal projection, and the connector shaft is extended at a region (12) below the mains plug.
