Abstract (en)

[origin: EP2409628A1] The cleaner (1) has a holder (4) for holding a suction tool in a parked position and arranged at a housing (2). An illumination device e.g. parking lights (9, 10) and a light strip (11) are attached at the holder. The holder is divided into a guiding region and a holding region, and the lights are arranged at the guiding region and the holding region. The illumination device comprises a light source i.e. LED and optical fibers, that are projected at a housing surface and attached at the light source. A switching device is attached to the illumination device.
