Abstract (en)

[origin: WO2010108624A1] The invention relates to a bristle insert (10), in particular for a brush, formed by at least one package comprising a portion of plastic bristles (12), the ends of which are fused to one another in such a way that a self-supporting retaining element (14) is formed. The invention also relates to a brush having such a bristle insert (10) and to a method for producing such a bristle insert.
