Abstract (en)

[origin: WO2010108849A1] The invention relates to an electrical machine, in particular a starter for internal combustion engines, having a torque support (42, 50, 72) for a transmission component (44) of a planetary gearing (20) on a housing (54, 62). The torque support (42, 50, 72) comprises symmetrically or asymmetrically designed material weakening (64, 70, 74, 84) enabling a dampening.
