Abstract (en)  
[origin: WO2010109339A1] The invention provides an elongate optical fibre channel (1.002) having a substantially flat base (1.004) into which optical fibres (1.010) or optical fibre cable (1.012) can be laid in an overlength manner, and a substantially flat cover (2.022) adapted to be applied to the channel after the optical fibre has been installed in the channel.
