Abstract (en)

[origin: EP2412642A2] The present invention relates to an assembly for forming a packaging for a liquid. The invention also relates to a frame (1,2) for holding a container for a liquid. The invention further relates to a container (3) for holding a liquid. The invention provides a packaging having a frame which can be folded in and outward and inside which a container for a liquid can be placed. The container can itself also be foldable inward in a transverse direction.
