Abstract (en)  
[origin: EP2412661A1] The industrial truck is provided with a display device (25) that is formed by a transparent display (26), where the display is formed as a transparent electroluminescent display, particularly a transparent thin-film electroluminescent display. A transparent sheet (20) is arranged between the load part (3) and the driver seat (10), where the display is arranged on the sheet.
