Abstract (en)

The package has pinpoint light sources (3) placed in a manner to form a luminous pattern on a part of an external surface of the package. A power supply circuit has an energy source to supply energy to the pinpoint light sources. An internal volume is delimited by side walls (1). The light sources are assembled with the side walls and/or to that a bottom and/or a lid. The pinpoint light sources are LEDs and optical fibers, where the pinpoint light sources are monochromatic or polychromatic. An independent claim is also included for a shelf for goods comprising a zone of self-service.

Abstract (fr)

L'invention concerne un conditionnement d'au moins un article comprenant un volume interne destiné à recevoir ledit au moins un article. Selon l'invention, ce conditionnement comporte des sources lumineuses ponctuelles (3) placées de manière à former un motif lumineux sur une partie au moins de la surface externe dudit conditionnement, ledit conditionnement comprenant un circuit d'alimentation comportant une source d'énergie pour alimenter en énergie lesdites sources lumineuses ponctuelles (3).
