Abstract (en)  
[origin: WO2010115689A2] The invention relates to a dishwasher, especially a household dishwasher, at least comprising a crockery basket provided with a storage tray (1) for items to be washed, said storage tray (1) comprising at least one holding device to be brought into contact with a first section of the crockery basket in order to fix to the crockery basket in a first storage position (I) for placing items to be washed. According to the invention, the holding device is designed to be brought into contact with a second section of the crockery basket in order to fix to the crockery basket in a second storage position (II) for placing items to be washed.
