Abstract (en)

[origin: US2010258522A1] A synthetic cork is provided, comprising a shank portion, having a tip portion and a base portion, the base portion including a radial contour, the radial contour providing increased radial surface area relative to a smooth radial bottom portion. A synthetic cork stopper is also provided, wherein the synthetic cork base portion is glued into a hole of a cap. In exemplary embodiments, the radial contour is a spoked configuration.
