Abstract (en)  
[origin: EP2418441A1] The cooling module (1) has a tube assembly through which an inlet opening and an outlet opening are connected together for another fluid medium. A system support is fixed with the cooling module in the ice storing bowl and the tube assembly is fixed at the system support. Independent claims are also included for the following: (1) an ice storage with an ice storing bowl filled with a fluid medium; and (2) a kit for expending an ice storage.
