Abstract (en)

[origin: WO2011000469A1] The invention relates to devices and a method for fastening a support (1) to a target surface, said support comprising an adhesive surface provided with an adhesive and the size of the target surface corresponding to the size of the adhesive surface. The method comprises the following steps: producing a plurality of depressions in the target surface and pressing the adhesive surface which is provided with the adhesive onto the target surface having the depressions.
