Abstract (en)

[origin: EP2420306A1] The coupling element (16) has a fixing unit for fixing the coupling element at a heel area of a ski boot. Two outer fixing points are arranged at shoe center plane (E) laterally outside of an attachment section. The coupling element has two arm sections (26l,26r) that laterally extend outwards to the outer attachment points. An independent claim is also included for a ski boot has a boot leg and a sole part.
