Abstract (en)

[origin: WO2010125242A1] The invention relates to a method for packaging products (3) in which method one or several products (3) are covered or enveloped with protective boards (2a-d). In the method according to the invention a board made of naturally curved wood veneer (11) is used as a protective board (2a-d), said wood veneer being coated on both sides with a film-like or fibrous reinforcement material (12, 13). The invention also relates to a packaging (1) and a packaging material according to the method of the invention.
