Abstract (en)

[origin: EP2425742A1] The retrofitting system comprises a shelf level inlay made of a goods slide plate (1), particularly made of metal, which has rectangular upturn beams at the front side (2) and rear side (3). A partition frame (4) is provided with two parallel and connected cross-studs, and is designed on one side with a vertically mounted printed circuit board (5), and on the other side has a horizontally mounted square pin (6).
