Abstract (en)
[origin: EP2425876A1] The extinguisher has a canister containing extinguisher product e.g. water, and two reservoirs (5a, 5b) for containing additive product e.g. biocide. A releasing unit releases the additive product from one of the reservoirs and mixes the additive product to the extinguisher product. The reservoirs are detached with respect to the extinguisher, where the reservoirs are arranged at an interior of the canister. The reservoir is arranged at an interior of a compressed gas cartridge (20). An extinguisher product evacuation tube is connected to the reservoirs that are disjointed.
