Abstract (en)

[origin: WO2010116157A1] A footbath (110) comprises a bath body (112) defining a receptacle in which a foot can be washed the bath body and a seating unit (116). The bath body is configured for fixed installation in connection with a supply of running water. The seating unit is movable relative to the bath body between a stored position in which the seating unit is at least partially disposed over the bath body and a use position in which the seating unit is retracted from the stored position.
