Abstract (en)

[origin: WO2010130520A1] A hand-held power tool has a housing comprising at least two separate and interconnected housing parts (2, 4), wherein one housing part forms a handle part (4) for holding and guiding the hand-held power tool. At least two vibration reduction elements (7, 8, 14, 15) are arranged in the force transmission path between the housing parts.
