Abstract (en)

[origin: EP2431134A2] The tool i.e. motor saw (1), has a support for a rechargeable battery package (11) provided at a housing. An accommodation space is provided in the housing, and a system carrier is arranged in the space. Electric components e.g. electric switching devices (12), electronic controllers (13) and switches (16), and electric lines are attached at the carrier. A rechargeable battery shaft is formed in the carrier, and contact elements are arranged at the carrier for contacting the package. The electric components are connected one below the other with the contact elements by the lines.
