Abstract (en)
The present invention relates to a burglar-resistant ventilation grille (1) which can be fitted in or on wall openings of existing buildings without requiring considerable alteration works. To this end, said ventilation grille (1) comprises a grille frame (2), two or more slats (3) which are fitted in a fixed, non-rotatable position and virtually parallel to one another in the grille frame (2) and at least one burglar-resistant bar (4) which is arranged along the length of one of said two or more slats (3) and extends beyond the slat (3) on either side of said slat (3), and is arranged so as to be rotatable with respect to the grille frame (2).
