Abstract (en)

[origin: WO2012007071A1] The present invention relates to a method and to an apparatus for producing multipacks using at least one material web (3) made of at least one packaging film. The material web (3) here is provided with at least one printed image (5). According to the invention, the printed image (5) is generated in an at least two-stage method from text (8) and a text panel (9), which is applied subsequently to the text (8).
