Abstract (en)
A method for dosing and amalgamating/mixing, by means of at least one mixer or mixing device 2, at least one solid-phase component "S" to be amalgamated/mixed with at least one liquid-phase component "L" in order to obtain paints and wall coatings with homogeneous mixtures, being characterized by the following operating steps: a) introducing, by means of at least one dosing system (6), at least one solid-phase component "S", in reduced quantities, into at least one container (4); b) introducing, by means of a dosing system (6), at least one liquid-phase component "L", in reduced quantities, into at least one container (4); c) amalgamating/mixing the compound by using at least one mixer (2); d) closing container (4) before it is delivered to the final customer.
