Abstract (en)

A bag-like container with a transparent portion, particularly for food products such as bread, focaccia, biscuits or the like, the bag-like container (1) having a body (2) that defines a containment compartment (3) which is provided with an opening (4), at one of its ends, and with a pair of accordion folds (5a, 5b) that extend parallel to each other from the opening (4) at two opposite sides of the body (2), the body (2) being composed of a first sheet (6) and a second sheet (7), which have a rectangular plan shape and are superimposed and mutually joined at three of their four sides to delimit the containment compartment (3) with the opening (4) at the fourth side of these two sheets (6, 7), at least one sheet (7) of the two sheets (6, 7) being made of transparent material and the two sheets (6, 7) being mutually joined along two of their sides at the pair of accordion folds (5a, 5b).
