Abstract (en)
[origin: EP2436846A2] The structure (15) has a detachable tape (21) that removes the filling element (16) from the receiving space (13) of anchor rail (11). A connection region is formed on the plane surface of filling element. The detachable tape is fixed to the connection region of filling element. Independent claims are included for the following: (1) anchor rail; and (2) method for manufacturing filling structure.
