Abstract (en)
Disclosed is a light emitting structure comprising a first semiconductor layer (122), a second semiconductor layer (126), and an active layer (124) disposed on between the first and second semiconductor layers, a first electrode (130) electrically connected to the first semiconductor layer (122) and a second electrode (150) electrically connected to the second semiconductor layer (126). The first semiconductor layer is formed, at an edge portion thereof, with a hole, in which a portion (134) of the first electrode (130) is arranged.
