Abstract (en)  
[origin: WO2010142715A1] The invention relates to a dispenser (1) for a film (10), comprising a housing (2), a film supply (6), a dispensing area (18) for removing the film (10), and a weakening device (11) that is rotatably supported on the housing (2) and that has at least one weakening means (16) for equipping the film (10) with weakened areas (17) as separating aids for separating a film section, wherein the weakening device (11) is in contact with the film (10) during the removal of the film (10) from the film supply (6) in order to enable an engagement of the at least one weakening means (16) with the film (10).
