Abstract (en)

[origin: EP2441370A2] The dishwasher has a rinsing container provided with a rinsing basket (4) that contains material to be cleaned. A front spray arm (5) is arranged toward a front side (V) of the rinsing basket in a displaced position. A rear spray arm (6) is designed as an auxiliary spraying system with outlets for water and/or washing liquor (S). The spray arms are supplied by a common intake pipe extending below the rinsing basket with a component toward the front side. The intake pipe includes a deep location (11) above inlets (12, 13) toward the front spray arm or the rear spray arm.
