Abstract (en)

[origin: WO2010146262A1] The invention relates to an assembly including an automobile floor (2), an inner side rail (3) to which the floor (2) is attached, a crossbeam (4) attached onto the floor, comprising a mounting (5) for the front seat portion of the vehicle, the mounting (5) having a seat slider (6), a lower rail (1) for guiding the sliding of a sliding side door, the lower rail (1) extending along the inner side rail and comprising a box (7) for closing the front end of the rail, characterized in that said mounting (5) covers said lower rail (1) in order to constitute the closing box (7) for said lower rail and has both the means for attaching said lower rail (1) and those for attaching said seat slider (6).
