Abstract (en)

[origin: WO2010151692A1] Systems and methods for obtaining network credentials are disclosed. In some embodiments, a method comprises receiving, with a digital device, a network identifier from a network device, providing a first credential request including the network identifier to another digital device on a network, receiving a request for additional network information from the other digital device, providing a second credential request including additional network information to the other digital device, receiving a credential request response including network credentials from the other digital device, and providing the network credentials from the credential request response to a network device.
