Abstract (en)

[origin: WO2010149427A1] Method of enriching the content of a page (2) placed online in a communications platform and consultable by a user with the aid of a navigator (1), said user being registered with at least one social network (12, 13, 14), this method comprising: extraction of the relevant terms from the page (2) by exploration by the user; semantic synthesis of the content of a plurality of social networks comprising at least one social network with which the user is registered; recovery of information relating to the relevant terms extracted on the basis of the semantic synthesis of the content of the social network with which the user is registered; display to the user of the information recovered.
