Abstract (en)
[origin: EP1630318A2] The strainer (2) fits over a collecting basin (1) fastened in an aperture (3) in the concrete roof (4). The basin rests on a support plate (6) carrying a mass of fire safety material (8) which may swell and block the drain. The drainpipe connection (9) and drainpipe (10) have thin walls and pass through a central aperture in the mass of fire safety material. A large diameter pipe (11) surrounds the drain basin and the fire safety material.
