Abstract (en)
The method involves simultaneously carrying out washing step of muffle (2) and a descaling step of boiler (3) in parallel, where the muffle forms a cooking enclosure and the water is sent by the boiler as vapor inside the muffle enclosure. Neutralizing, emptying and rinsing step of the boiler is carried out after the boiler is descaled. A pre-rinsing step of the muffle is carried out after the muffle is washed. A prewashing step of the muffle and a rinsing step of the boiler are respectively carried out prior to the washing step of the muffle and the descaling step of the boiler.

Abstract (fr)
Selon l'invention, le procédé de nettoyage d'un four à cuisson mixte (1), comportant un moufle (2) formant l'enceinte de cuisson, et une chaudière (3) d'envoi de l'eau, sous forme de vapeur, à l'intérieur de l'enceinte du moufle, est remarquable par le fait qu'on effectue en parallèle, de façon concomitante, l'étape de lavage du moufle (2) et l'étape de détartrage de la chaudière (3).
