Abstract (en)
[origin: WO2011000877A1] The invention relates to a security element for security papers, value documents and the like, comprising the following: a carrier (3) having a upper face (4) and a lower face (7); an upper embossed lacquer layer (9), which is applied to the upper face (4) and in which an upper embossed structure (11) is formed; and a lower embossed lacquer layer (9), which is applied to the lower face (4) and in which a lower embossed structure (11) is formed. An upper reflective layer (8) lies between the upper face (4) of the carrier (3) and the upper embossed lacquer layer (9).
