Abstract (en)
The garment has a textile base that is arranged in contact with a body of a user. A compression zone (5) encloses a member e.g. thigh, of the user. The compression zone is obtained by affixing a latticed film on the base. A postural maintenance zone (52) is included in the compression zone. The compression zone is designed to enclose a part of a trunk of the user. The postural maintenance zone is placed along a part of the trunk of the user without turning the postural maintenance zone.

Abstract (fr)
Vêtement de sport destiné à couvrir au moins un membre d'un utilisateur comportant une base textile (10) portée essentiellement au contact du corps et comprenant une zone de compression (4, 5, 6, 7) entourant ledit membre, ladite zone de compression comprenant au moins un film (12, 14) apposé sur la base textile (10), ledit film (12, 14) comportant une pluralité d'ouvertures (16). La zone de compression comprend au moins une zone de compression exclusive (41, 51, 61) et au moins une zone de maintien postural (42, 52, 53, 54, 62, 73), la résistance à l'allongement de la portion de vêtement constituant la zone de maintien postural étant supérieure à celle de la portion de vêtement constituant la zone de compression exclusive selon au moins une direction de sollicitation
