Abstract (en)
The bag (1) has a wall defining a storage chamber of components of tent. A stiffening unit of the wall forms a self-carrying structure handling a storage housing (22) defined in the chamber when opening frames (5a, 5b) are closed. Removable support units e.g. shelves (7), are arranged in the housing, and a maintaining unit (13) i.e. self-gripping band i.e. Velcro(RTM: hook and loop fastener) maintains the support units with respect to the wall. Each opening frame includes the maintaining unit proximity to a closing unit e.g. Zipper(RTM: slide fastener) of the bag.

Abstract (fr)
La présente invention a pour objet un sac de tente (1) destiné au transport d'une tente de camping, caractérisé en ce qu'il comporte au moins un moyen support (7), telle une étagère, et des moyens de maintien (13) dudit au moins un moyen de support (7) ainsi qu'un ensemble comportant une tente et un tel sac de tente (1).
